

InstaMakaan

Premium rental management for Noida Extension & Greater Noida West

Why Many Owners Still Lose Money

Low Rental Yield

Properties earn below market rates due to poor pricing strategy

Vacancy Loss

Extended periods without tenants drain revenue potential

Wrong Tenant Fit

Unverified occupants create payment delays and property issues

Repeated Brokerage

Every vacancy means another commission payment

Bottom line: **Demand exists. Execution is the problem.**

The Market Is Active

But many owners still under-earn

2,500+

Active Rentals

Monthly tenant searches in Noida
Extension

Strong Demand

Corporate hubs and infrastructure
drive consistent rental interest

15–20%

Yield Gap

Underperformance due to poor
management

Better Rental
Opportunity

Strategic positioning unlocks
premium rates

30–45

Average Days

Vacancy period with traditional renting

Right Management
Makes the Difference

Professional oversight maximizes
returns

Bottom line: **Same market. Better execution. Better outcome.**

Traditional Renting Creates Blind Spots

One Agreement

Single contract doesn't track actual occupancy patterns

Multiple Unknown Occupants

Sub-tenants and room changes without owner knowledge

Weak Verification

Limited background checks and reference validation

Low Owner Visibility

No real-time updates on property status or tenant behavior

Bottom highlight: **You deserve safer and smarter renting.**
